THE
PROBLEM
CYCLE

Overburdened
Foster System

The Solution

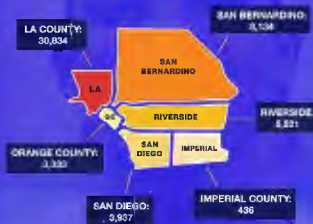

Most think "the government has it handled". But in reality the system has been created around the core ideal that good families will step up to care for these children. Right now, there are simply not enough good families to support the system. The problem ends when good families step up and say, "Yes to love."

Foster Care in SoCal

LA County alone has more children in foster care than, not just any other county, but any other entire state in the United States of America. Many are 'stuck' in the system with little hope to find a family.

⁸Food will not bring us close to God. We are not worse off if we don't eat, and we are not better if we do eat.

⁹But be careful that this right of yours in no way becomes a stumbling block to the weak.
